Dholpur, Rajasthan

Education

Vellore Institute of Technology, Bhopal — Dec. 2021 – May 2025
B.Tech in Computer Science & Engineering; CGPA: 7.43 — *Bhopal, Madhya Pradesh*

MB Public Senior Secondary School — May 2021
Intermediate - RBSE; Percentage: 88.00% — *Kota, Rajasthan*

MB Public Senior Secondary School — June 2019
High School - RBSE; Percentage: 70.00% — *Kota, Rajasthan*

Experience

Full Stack Developer — Feb. 2026 – Present
Subh Sankalp Pvt Ltd — *Noida, Uttar Pradesh*

- Build and run the company's in-house real estate CRM (.NET 8, C#, React.js, MS SQL Server, Azure), used daily by sales and accounts staff across 4 townships with 970+ plots and 2,600+ receipts.
- Merged three township CRMs into one multi-project system with per-township data scoping and role-based access; reconciled ₹60+ crore of migrated receipts to the rupee, and wrote a one-way sync service for the two legacy portals.
- Shipped PDF receipts, EMI plans, associate commission, lead routing from websites and Meta ads, a customer portal, an audit log, and an Android app from the same React code (Capacitor).
- Deploy via GitHub Actions to Azure App Service and Static Web Apps; kept the cloud bill near ₹3,250/month with budget alerts. Maintain 13 live marketing websites that feed leads into the CRM.

Full Stack Developer Intern — Apr. 2024
Ethnus Pvt Ltd — *Vellore, Tamil Nadu*

- Built responsive web applications using React.js and .NET Core Web API with clean Swagger documentation.
- Implemented JWT authentication, role-based authorization, Entity Framework Core, and MS SQL Server integration.
- Worked across C#, .NET Core, React.js, JavaScript, HTML, and CSS for end-to-end application features.

Projects

Subh Sankalp Real Estate CRM | *.NET 8, C#, EF Core, React.js, MS SQL Server, Azure* — 2026 – Ongoing
Live: platinumtownship.in

- Designed REST APIs (Swagger/OpenAPI, JWT, BCrypt) with project-scoped queries so each township sees only its own data; four .NET background workers run token expiry, lead distribution, site-visit status and legacy sync.
- Built the React.js front end with TanStack Query, React Hook Form and Recharts dashboards; in-browser OCR (Tesseract.js) auto-fills Aadhaar/PAN on receipts, and Firebase push notifications reach the Android app.

Real Estate Marketing Websites | *React.js, Vite, Tailwind CSS, Lenis, PHP* — 2026 – Ongoing
Live: merovrindavandham.com · ganeshaestate.com · goldencitytownship.in · mannatresidencypg.com

- Built township and PG websites with live plot availability from the CRM API, interactive plot maps, EMI and ROI calculators, and enquiry forms that create CRM leads.
- Added SEO (structured data, Open Graph, sitemaps), Google Analytics / Tag Manager, and fast mobile loading.

Food-Yum-Yum - Restaurant Onboarding Portal | *React.js, Node.js, JavaScript, HTML, CSS* — Oct. 2022

- Built a restaurant onboarding portal with structured registration flows, database optimization, and payment gateway integration.

Technical Skills

Languages: C#, JavaScript (ES6+), SQL
Backend: .NET 8 / ASP.NET Core Web API, Node.js, REST APIs, Swagger, EF Core, JWT, Background Workers
Frontend: React.js, TanStack Query, React Hook Form, Tailwind CSS, Vite, HTML5, CSS3, Capacitor (Android)
Databases: MS SQL Server (Azure SQL), MySQL, Firebase Firestore
Cloud / DevOps: Azure App Service, Blob Storage, Static Web Apps, GitHub Actions (CI/CD), Firebase (FCM), Vercel
Tools: Git, GitHub, Visual Studio, VS Code, Postman, Figma, Adobe XD

Certifications & Achievements

- MERN Stack Developer - Ethnus Certified | Cloud Computing - NPTEL Certified | Applied Machine Learning with Python - Coursera.
- Secured 2nd Rank in Robothon Competition, Robotics Club, VIT Bhopal; ranked Top 5 in ADVITYA'24 Chess Tournament.
- Mentored 35+ batchmates and 100+ junior students as a Teaching Assistant; maintained a 100+ days coding streak.
